

School Health Profile 2015/16

Desford Cluster

This profile provides a picture of child health in this area. It is designed to help local government and health services professionals understand the needs of children in order to improve children's health and reduce health inequalities.

- 1 Barlestone Church Of England Primary School
- 2 Bosworth Academy
- 3 Congerstone Primary School
- 4 Desford Community Primary School
- 5 Dove Bank Primary School
- 6 Newbold Verdon Primary School
- 7 St Peter's Church Of England Primary Academy
- 8 The Market Bosworth School

Key Statistics

The health of people in Hinckley and Bosworth is varied compared with the England average. About 11% (2,100) of children live in low income families.

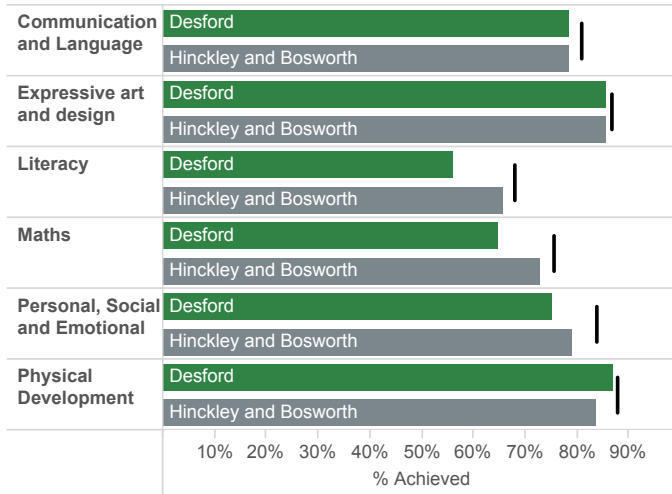

- Deprivation is lower than average and life expectancy for both men and women is higher in Hinckley and Bosworth than the England average.
- * The cluster has 6 primary and 2 secondary schools. 3150 pupils attend these schools and 51.5% are male.
- * The modelled percentage of pupils at age 5 achieving a good level of development in the cluster is worse than the England average.
- * In Reception, 79 children were classified as overweight or obese. In Year 6, this rises to 105 children (estimated).

Key Figures

	Desford	Hinckley and Bosworth
Black Minority Ethnic Pupils	14.9%	11.1%
English as an Additional Language	4.2%	3.7%
Free School Meals	5.8%	7.2%
SEN Statement	2.2%	3.2%
SEN Support	13.5%	9.2%

School Readiness

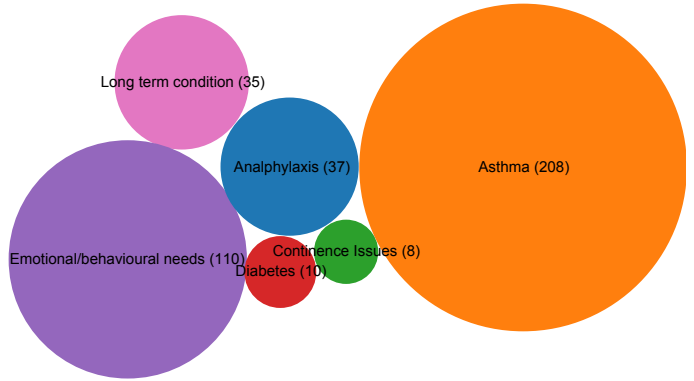

School readiness is a measure of how prepared a child is to succeed in school, cognitively, socially and emotionally. Just as there is an achievement gap in school performance, there is a school readiness gap that separates disadvantaged children from their more affluent peers.

Leicestershire percentage

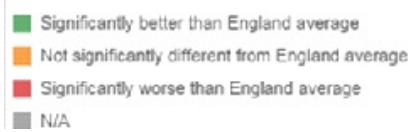

School Health Profile

The school health profile will support schools to establish a clear and concise picture of health issues within the school and the wider community for children of all ages. The circles show the counts of pupils with medical conditions in the school cluster. The sizes of the circles are proportional to number of pupils with each condition. Values of less than five are suppressed.

Child Health Summary for Desford

The chart below shows how the health of children in this area compares with the rest of England. This area's result for each indicator is shown as a circle. The average for England is shown by the black line, which is always at the centre of the chart. The range of results for all local areas in England is shown as a grey bar. A red circle means that this area is significantly worse than England for that indicator; however, a green circle may still indicate an important public health problem.

Indicator Name	Local Value	Eng Avg	Eng Worst	England Range	Eng Best
1. Low Birth Weight Births (%)	6.6	7.4	14.1	1.4 - 14.1	1.4
