## Split of Recorded and Non Recorded Incidents

### <u>Notes</u>

This dashboard includes details of both recorded offences and non-recordable incidents of domestic abuse. All reports of incidents, whether from victims, witnesses or third parties and whether crime realted or not, will result in the registration of an incident report by the police. Following the initial registration, the incident will subsequently by classed as either a recorded offence or a non-recordable incident.

Recorded Offences : The police determine whether the circumstances, as reported, amount to a crime defined by law, based on their knowledge of the law and the Home Office Counting Rules (HOCRs).

Non-recordable Incidents : If an incident is reported but does not constitute a recorded offence it is classed as non-recordable incident

All Domestic Abuse incidents : This includes all incidents registered with Leicestershire Constabulary, where the Domestis Abuse flag on CIS is set to 'Y'.

Target : Increase reporting of domestic abuse offences/incidents compared to 2010/11
