#### Hate Incident Monitoring Project Report - Project Overview

The Leicestershire Multi-Agency Hate Incident Reduction and Monitoring Steering Group works in partnership with key agencies to achieve two key aims across the County:

- Raising awareness of hate incidents
- · Increasing reporting of hate incidents

These dashboards are a record of the data received by the Hate Incident Monitoring Project and Police. For further information please contact the project on 0116 3058263.

#### Key points for reading the new interactive dashboards:

It is best to view the interactive dashboard on-line in order to get a full picture of the data provided for the given quarter.

#### **HIMP DASHBOARD PAGE 1**

- · Figures provided within the dashboards are rolling figures for 12 months. This dashboard shows Quarter two figures which roll from October 2012 to September 2013.
- · The category column top left hand corner, provides various options. These are as follows:
  - -All hate incidents & offences (crimes and non crimes) = everything
  - -All hate Incidents (HIMP & Police)
  - -Hate incidents reported via HIMP
  - -Hate incidents reported via Police
  - -All hate offences (Police)
  - -Hate offence violence against the person
  - -Hate offence criminal damage
  - -Hate offence other offence
- · The table to the far left provides the total number of incidents per district
- · The line chart in the middle identifies peaks across a two year span.
- . The Bar chart to the right shows all hate incidents split by type (%of total).

NB: when figures are very low, peaks on the charts can be misleading. Therefore it's always best to get an actual number to ascertain an accurate picture.

#### **HIMP DASHBOARD PAGE 2**

This dashboard shows All hate incidents (police offences and incidents and HIMP) as a rate per 1000 population at Lower Super Output Area (LSOA).

- Hover over the map to see the incident rate and name of LSOA.
- Click an area on the map and the relevant bar will be highlighted in the chart to the right.
- Click a bar on the chart and the relevant area will be highlighted on the map.
- The bar chart top right shows the incident rate at district level for comparison.
