Introduction

The Unemployment Bulletin provides a monthly update of the latest unemployment and benefit data for Leicester and Leicestershire. The data is sourced from Nomis¹ which contains data from the Office for National Statistics, the Department of Work and Pensions and other official sources. Some figures have been calculated by Leicestershire County Council and where this is the case it is stated in the source.

There are a number of ways of measuring unemployment and this bulletin mainly focuses on Job Seekers Allowance (JSA) which records the number or proportion of people claiming Job Seekers Allowance (JSA) and National Insurance credits at Jobcentre Plus local offices. The Job Seekers Allowance (JSA) is released on a monthly basis and is available to ward level.

Unemployment Dashboards

The majority of unemployment data is available from a dashboard produced by the Strategic Business Intelligence Team at Leicestershire County Council and published on LSR Online. The dashboard is available from the following link:

https://public.tableausoftware.com/views/UnemploymentBulletin/HeadlineData?:embed=y&:display_count=no:showVizHome=no#

Business Register and Employment Survey (BRES)

In addition, the annual Business Register and Employment Survey (BRES) provides data on employment by industry and is available from the following link:

https://public.tableausoftware.com/views/BRESData/BRESDashboard?:embed=y&:display_count=no:showVizHome=no#

Archived Reports

Archived Unemployment Bulletins and other reports produced by Leicestershire County Council are available on the Leicestershire Statistics and Research Online website from the following link:

<http://www.lsr-online.org/reports.html?query=Keyword...&tag=Unemployment&category1=&month=&age=3&sort=latest&submit=Filter>

Next Release

The next unemployment data will be released by the Office National for Statistics on **13th December 2017**.

Commentary

National

A comprehensive commentary on the national labour market is produced by the Centre for Economic and Social Inclusion (CESI) and is available at the following link:

<http://www.cesi.org.uk/statistics/labour>²

Leicester, Leicestershire and Rutland

JSA Claimants

The overall number of JSA claimants for the LLEP³ area decreased in October 2017, with 130 less people claiming JSA compared to September 2017. There were a total of 4,205 claimants in the LLEP area in October 2017. In Leicester City there were 2,565 people of working age claiming JSA while in Leicestershire the figure was 1,640. In the LLEP area as a whole, 0.6 percent of the working population were claiming JSA in October 2017. The claimant rate was 1.1 percent in Leicester City and 0.4 percent in the County. This is compared to 0.9 percent in the East Midlands, 1.0 percent in England and 1.1 percent in the UK as a whole.

Across Leicestershire North West Leicestershire experienced a small increase in claimants with 5 more people claiming JSA in October 2017, while Blaby and Hinckley and Bosworth claimants dropped by 30 fewer people claiming JSA followed by Charnwood (-15). Charnwood experienced the highest number of claimants overall, with 540, followed by North West Leicestershire with 255 and Hinckley and Bosworth with 240.

Exploring the claimant rate for Leicestershire districts, no districts experienced a change in the claimant rate between September and October apart from Melton with 0.1 percent point drop in claimants. Charnwood and Oadby and Wigston experienced the highest overall claimant rate (0.5 percent) while Harborough and Melton experienced the lowest claimant rate (0.2 percent).

Claimant Count (including Universal Credit)

In October 2017 there were a total of 7,795 claimants in the LLEP area, with 180 less people claiming JSA and Universal Credit since September. There were a total of 4,025 claimants in Leicester City and 3,770 in Leicestershire. In terms of the claimant rate, 1.2 percent of the working age population in the LLEP area were claiming JSA or Universal credit in October 2017; 1.7 percent in the City and 0.9 percent in the County. This is compared to 1.6 percent in the East Midlands, 1.9 percent in England the UK.

² N.B. In some cases, data reported by CESI is seasonally-adjusted and may not correspond with figures reported within this report and the accompanying dashboards. Views expressed are those of CESI and June not reflect the views of Leicestershire County Council.

³ The Leicester and Leicestershire Enterprise Partnership (LLEP) comprises of Leicester City and Leicestershire County.

Across Leicestershire districts, Charnwood experienced the largest number of claimants in October 2017, with 900, followed by Hinckley and Bosworth with 790 and Melton with 510. Melton experienced the highest claimant rate in October 2017 with 1.7 percent of the working age population claiming JSA or Universal Credit, followed by Hinckley and Bosworth with 1.2 percent. Harborough and Blaby experienced the lowest claimant rate with 0.7 percent.

Other Data

Other figures of note include:

- 85 fewer male claimants and 35 fewer females claimants in the LLEP area between September 2017 and October 2017;
- 95 fewer claimants claiming for up to 12 months in the LLEP area between September 2017 and October 2017;
- 55 fewer claimants in the LLEP area from Sales and Customer Service occupations between September 2017 and October 2017;
- Spinney Hills Ward in Leicester exhibits the highest claimant count in the city, county and Rutland with 255 claimants, followed by New Parks Ward with 207 claimants and Braunstone Park and Rowley Fields Ward with 196 claimants. All three wards are in Leicester City;
- The ward with the highest claimant count in the county by a considerable margin was Loughborough Hastings, with 91 claimants, followed by Loughborough Lemington Ward with 49 claimants;
- Loughborough Hastings Ward exhibits the highest claimant rate in the city, county and Rutland with 2.1 percent of the working age population claiming JSA, followed by New Parks Ward in Leicester City with 2.0 percent;
- Across Leicestershire and Rutland market towns, Loughborough exhibits the highest number of claimants, with 305, followed by Hinckley and Bosworth, with 156 claimants.

Unemployment Data

The following section covers data released periodically (i.e. ILO data) and additional data not covered by the unemployment dashboards, as and when released. Rates for market towns and ethnicity are calculated separately due to changes in population denominators which would affect trend data.

JSA Claimant Rates by Market Towns

The table below displays the JSA claimant count and rate for Leicestershire and Rutland market towns.

Table 1 – JSA Claimant Count and Rates by Market Towns, October 2017.

Market Town	Count	Rate
Ashby de la Zouch	39	0.5
Coalville	124	0.5
Hinckley (inc. Burbage and Earl Shilton)	156	0.4
Loughborough (inc. Hathern)	305	0.7
Market Harborough	12	0.1
Melton Mowbray	49	0.3
Oadby	62	0.4
Oakham	25	0.4
Wigston	78	0.5

Source: JSA-NOMIS, 2017; ONS, 2015.

N.B. Rates are calculated using the mid-2015 experimental resident population aged 16-64.

Data for market towns is based on aggregated ward data. Historical rate data and a list of wards covering market towns are available from archived versions of the unemployment bulletin, available via the link on page 5.

JSA Claimant Rates by Ethnicity

The table below displays the JSA claimant count rate by broad ethnic group for Leicester, Leicestershire and Rutland. Data on claimant count by ethnicity is released one month behind the overall claimant count data. Rates are calculated using 2011 Census population data for people aged 16-64:

Table 2 – JSA Claimant Rate by Ethnicity, September 2017.

Area	White	BME	Mixed	Asian or Asian British	Black or Black British	Chinese or Other Ethnic Group
Blaby	0.4	1.0	0.7	1.1	0.8	0.9
Charnwood	0.5	0.6	0.7	0.5	0.5	0.6
Harborough	0.2	0.4	0.0	0.3	0.0	0.0
Hinckley and Bosworth	0.4	0.4	0.0	0.3	2.4	0.0
Melton	0.2	0.7	0.0	0.0	6.0	0.0
North West Leicestershire	0.4	0.3	0.0	0.0	0.0	2.0
Oadby and Wigston	0.5	0.6	0.0	0.5	2.0	1.3
Leicester	1.2	1.1	1.4	0.8	2.6	1.4
Leicestershire	0.4	0.6	0.5	0.5	1.0	0.7
Rutland	0.3	0.7	0.0	0.0	0.0	0.0
LLEP	0.6	1.0	1.1	0.8	2.3	1.2
East Midlands	0.9	1.5	1.5	0.9	3.2	1.8
England	0.9	1.8	1.5	1.1	3.3	2.0

Source: JSA-NOMIS, 2017; ONS, 2011.

N.B. JSA Claimant count by ethnicity release one month behind the overall claimant count.
 'Chinese' included in 'Other' as per NOMIS definition not as per 2011 Census definition.
 'White Irish' included in 'White'.

Historical rate data by ethnicity is available from archived versions of the unemployment bulletin available via the link on page 5.

Data Guide

This guidance has been created to help you get the most out of the various sources of unemployment data available through the accompanying dashboards and official sources.

Unemployment Dashboards

A range of interactive dashboards have been created by the Research and Insight Team to help interested parties access relevant data and understand change over time and across geographies. Links to all dashboards currently managed by the team are included in the **References** section below.

How to use the dashboards

1. Use the **tabs** at the top of the page to navigate between dashboards:

2. Dashboards display monthly claimant count by default. Where applicable, use the **radial buttons** to change the data displayed:

3. Where applicable, use the **check boxes** or **drop-down** list to switch between different combinations of categories:

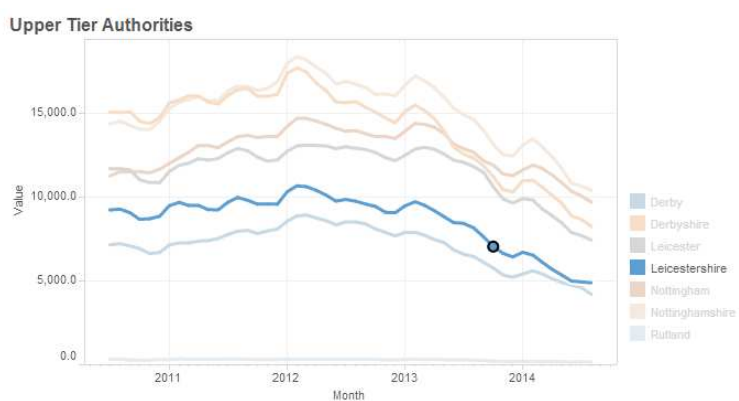

Where applicable, make selection and click **Apply** to update the dashboard.

Unemployment Bulletin October 2017 Data

4. For more information on a specific point, **hover** over the dashboard:

5. To highlight relevant data across the dashboard, **click** on a point or table cell:

6. For more information on the dashboard, hover over the **icon**:

7. To undo, redo or rest the dashboard selection, use the **icons** at the bottom-left of the page:

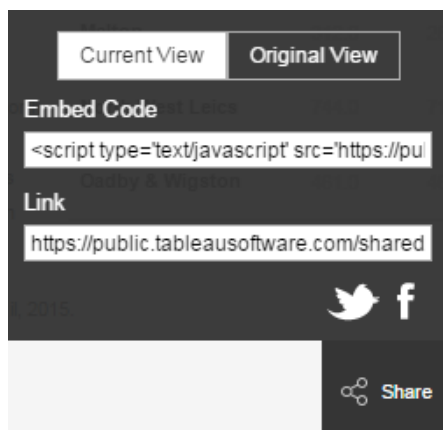

8. To export the dashboard, a specific chart or table, or the underlying data, click on an element and use the **Download icon** at the bottom-right of the dashboard:

When exporting **data**, use the tabs at the top of the **View Data** window that appears to select the summary, or underlying data.

9. To share the dashboard, or a specific view, use the **Share icon** in the bottom-right corner:

10. To go to the Tableau homepage, or browse the Strategic Business Intelligence Team Tableau Public page, click on the links at the bottom of the page.

NOMIS

A complete set of statistics for a specific area can be downloaded from the NOMIS website, available at the following link:

<http://www.nomisweb.co.uk>

N.B. The layout of the NOMIS website was updated in November 2015.

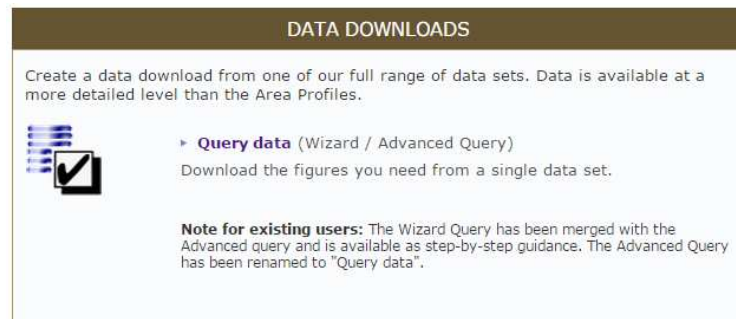

1. On the NOMIS homepage, select a geography from the **Area Profiles** menu and follow the instructions to access a selection of data for that area:

The screenshot shows a dark header with the text 'AREA PROFILES'. Below the header, there is a paragraph: 'View a labour market profile of an area. Includes some of the data from our key datasets on population, employment, unemployment, qualifications, earnings, benefit claimants and businesses.' Below this paragraph is a list of five profile types, each preceded by a blue right-pointing arrow:

- ▶ **Regional and National Profile**
- ▶ **Local Authority Profile** (district/county areas)
- ▶ **2011 Ward Profile** (smaller areas, England & Wales only)
- ▶ **Local Enterprise Partnerships Profile**
- ▶ **2010 Parliamentary Constituencies Profile**

2. For more comprehensive data, follow the **Query Data** link from the **Data Downloads** menu and follow the instructions:

The screenshot shows a dark header with the text 'DATA DOWNLOADS'. Below the header, there is a paragraph: 'Create a data download from one of our full range of data sets. Data is available at a more detailed level than the Area Profiles.' Below this paragraph is a list of one item, preceded by a blue right-pointing arrow and a small icon of a document with a checkmark:

- ▶ **Query data** (Wizard / Advanced Query)
Download the figures you need from a single data set.

Below the list is a note: **Note for existing users:** The Wizard Query has been merged with the Advanced query and is available as step-by-step guidance. The Advanced Query has been renamed to "Query data".

Population and Census Data

Population data used to calculate rates can be accessed from NOMIS using the **Data Downloads** menu above and following the instructions.

The full range of 2011 Census data can be accessed from the **2011 Census Statistics** menu on the NOMIS homepage:

The screenshot shows a dark purple header with the text '2011 CENSUS STATISTICS'. Below the header, there is a paragraph: '21 Jan 2015 - Further small population data now available'. Below this paragraph is another paragraph: 'Further small population tables are now available for England and Wales.' Below this paragraph is a list of one item, preceded by a blue right-pointing arrow:

- ▶ **2011 Census Data on Nomis**

In the bottom right corner of the screenshot is the 2011 Census logo, which consists of a stylized 'C' with '2011' inside it and 'Census' written below it.

Definitions & Further Information

JSA Claimant Count

JSA claimant count records the number of people claiming Jobseekers Allowance (JSA) and National Insurance credits at Jobcentre Plus local offices. The percentage figures express the number of claimants resident in an area as a percentage of those aged 16-64 resident in that area.

Market Towns

The Market Town geographies are defined by Leicestershire County Council and figures are calculated using ONS Claimant Count (JSA) figures and mid 2014 resident population aged 16-64.

Unemployment: International Labour Organisation (ILO) Definition

Official estimates of unemployment in the UK are obtained from the Labour Force Survey (LFS) using the internationally agreed International Labour Organisation (ILO) definition. The ILO definition is based on the number of people without jobs who are looking for and available to start work. The LFS unemployment figures which are subject to sampling differences are not available for smaller areas.

Unemployment Rate (LFS ILO definition) - expresses the number of unemployed people resident in an area as a percentage of the economically active working age population resident in that area.

Labour Force Survey - The Labour Force Survey is a random sample survey which is carried out throughout the UK. It is conducted every three months using around 53,000 households. The survey collects information about the personal circumstances and work of everyone living in these households. The Office for National Statistics (ONS) uses the Labour Force Survey as its source for unemployment data. Unemployment is measured through questions asked in the survey and not by interviewing everybody in the country. Answers are then weighted to represent everyone. As with any sample survey there is sampling variability and this is high for areas below regional level. Therefore, the figures are not reliable for small areas. Each month the ONS releases statistics on the number of people who are unemployed in the United Kingdom for the latest available 3-month rolling period.

Other Department for Work and Pensions Benefits Statistics

Job Seekers Allowance is one of a number of types of benefit which is related to worklessness, and recipients of this benefit constitute the most visible group of people who are out of work. However, many people have been diverted away from Job Seekers Allowance on to other benefits, the largest number being onto Incapacity Benefit. Nationally, the number of people claiming Incapacity Benefit is over three times the number of people out of work and claiming JSA.

One method of classifying benefit claimants is by breaking them down into statistical groups. This presents the main reason why an individual is claiming benefit. Benefits are arranged hierarchically and claimants are assigned to the top most benefit which they receive. In this way each claimant only appears once, even though they November claim

Unemployment Bulletin October 2017 Data

more than one benefit - the total number of working-age people who are claiming one or more key benefits is often used as a proxy for worklessness.

These figures are provided by the Department for Work and Pensions and are updated quarterly.

Working age client group datasets are no longer being produced by DWP and will therefore no longer be updated. The last period for which these datasets are available is November 2016.
