INTRODUCTION

ABOUT THIS REPORT

This report provides a broad overview of the 2011 Census Key Statistics data, released by the Office for National Statistics on 30th January 2013, as part of the Second Release. This report summarises a selection of key headline datasets of this release for Leicestershire Electoral Divisions (EDs).

The Research and Insight Team at Leicestershire County Council has used data from the Second release to create an interactive Tableau dashboard containing 32 datasets covering the following geographies:

- England
- East Midlands
- East Midlands counties . Including Leicestershire
- Leicester City and Rutland Unitary Authorities
- Leicestershire districts

In addition, a headline report covers the results for Leicestershire and the seven districts that make up the county. The dashboard and report are available at the following links:

2011 CENSUS

Census statistics help paint a picture of the nation and how we live. They provide a detailed snapshot of the population and its characteristics, and underpin funding allocation to provide public services.¹ Data from the 2011 Census is made available at a variety of different levels of geography and in various releases.

The Key Statistics data covers a broad range of socio-economic topics, including data on ethnicity, health and employment. Each Key Statistic dataset is referred to by its unique three-digit code with the 'KS' prefix to denote a Key statistic (e.g. KS101). These are used throughout the report.

A full list of the 35 Key Statistics data tables are available here:

<http://www.ons.gov.uk/ons/publications/re-reference-tables.html?edition=tcm%3A77-286262>

¹ Office for National Statistics (ONS), 2013.

Further results from the census will be released throughout 2013, for more information, please visit:

<http://www.lsr-online.org/census-2011.html>

DATA

Data has been compiled for Leicestershire Electoral Divisions, covering the key datasets from the 2011 Census Key statistics.

Figures for 2011 and 2001 are included, along with the overall and percentage change between the two censuses. Data for each indicator is presented in a table and chart.

Population data is displayed in a table, a population pyramid and a chart showing percentage change between 2001 and 2011. All other data is displayed in tables, and charts. Charts for change between 2001 and 2011 are coloured according to the degree of change between the two censuses; grey corresponds to smallest change and green the largest change. A marker indicates the average figure for all Leicestershire Electoral Divisions.

GEOGRAPHY

Maps for all County Council Electoral Divisions can be found here:

http://www.leics.gov.uk/index/your_council/local_democracy/conductofcouncillorsandemployees/electoraldivisionmapsindex/electoraldivisionmaps.htm

As Census data is not made available for Electoral Divisions, smaller areas, called Lower Super Output Areas (LSOAs) have been used as building blocks for the figures included in this report. LSOAs are small parcels of geography, containing a minimum of 1,000 people, a maximum of 3,000 and an average of 1,500. LSOAs were initially developed for the 2001 Census and are used to release a range of neighbourhood-level datasets from various sources. There are 396 LSOAs in Leicestershire.

In some instances, LSOAs do not fit neatly within Electoral Divisions and in these cases, population weighted centroids - representing the 'centre of gravity' for population within an area - have been used in order to assign each LSOA to an Electoral Division. Electoral Divisions that fall within this category are indicated with a (*).

More information on Lower Super Output Areas can be found here:

<http://www.ons.gov.uk/ons/guide-method/geography/beginner-s-guide/census/super-output-areas--soas-/index.html>
