

School Health Profile 2017/18

Broughton Astley and Lutterworth Cluster

This profile provides a picture of child health in this area. It is designed to help local government and health services professionals understand the needs of children in order to improve children's health and reduce health inequalities.

- 1 Arnesby C of E Primary School
- 2 Claybrooke Primary School
- 3 Dunton Bassett Primary School
- 4 Gilmorton Chandler C of E Primary School
- 5 Hallbrook Primary School
- 6 Husbands Bosworth C of E Primary School
- 7 John Wycliffe Primary School
- 8 Lutterworth College
- 9 Lutterworth High School
- 10 Old Mill Primary School
- 11 Orchard C of E Primary School
- 12 Sherrier C of E Primary School
- 13 Sir Frank Whittle Studio School
- 14 South Kilworth C of E Primary School
- 15 St Andrew's C of E Primary School
- 16 St Mary's C of E Primary School
- 17 Swinford C of E Primary School
- 18 Thomas Estley Community College
- 19 Ullesthorpe C of E Primary School

Key Statistics

The health of people in Harborough is generally better than the England average. Harborough is one of the 20% least deprived districts/unitary authorities in England, however about 7% (1,000) of children live in low income families.

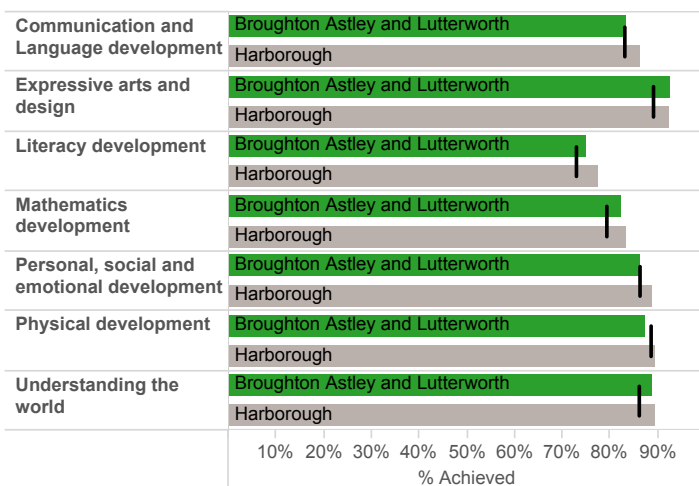

- * Deprivation is lower than average in Harborough and life expectancy for both men and women is better than the England average.
- * The cluster has 15 primary and 4 secondary schools. 5516 pupils attend these schools and 51.3% are male.
- * The modelled percentage of pupils at age 5 achieving a good level of development in the cluster is similar to the England average.
- * In Reception, 181 children were classified as overweight or obese. In Year 6, this rises to 273 children (2013/14 - 15/16 collective).

Key Figures

	Broughton Astley and Lutterworth	Harborough
Black Minority Ethnic Pupils (BME)	6.8%	10.4%
English as an Additional Language (EAL)	2.2%	3.4%
Free School Meals (Eligible)	3.8%	4.4%
Special Educational Needs (SEN) Statement	0.8%	0.7%
Special Educational Needs (SEN) Support	8.7%	8.4%

School Readiness

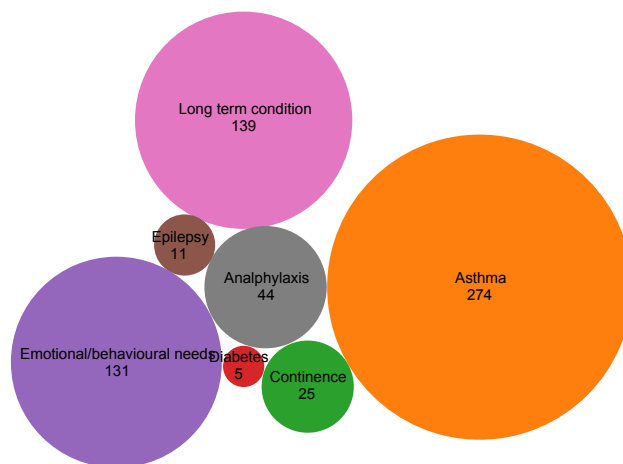

School readiness is a measure of how prepared a child is to succeed in school, cognitively, socially and emotionally. Just as there is an achievement gap in school performance, there is a school readiness gap that separates disadvantaged children from their more affluent peers.

Leicestershire percentage

School Health Profile

The school health profile will support schools to establish a clear and concise picture of health issues within the school and the wider community for children of all ages. The circles show the counts of pupils with medical conditions in the school cluster. The sizes of the circles are proportional to number of pupils with each condition. 89% of schools completed the return. Values of less than five are suppressed.

Child Health Summary for Broughton Astley and Lutterworth

The chart below shows how the health of children in this area compares with the rest of England. This area's result for each indicator is shown as a circle. The average for England is shown by the black line, which is always at the centre of the chart. The range of results for all local areas in England is shown as a grey bar. A red circle means that this area is significantly worse than England for that indicator; however, a green circle may still indicate an important public health problem.

- Significantly worse than England average
- Not significantly different from England average
- Significantly better than England average
- Not compared

Indicator Name	Local Value	Eng Avg	Eng Worst	England Range	Eng Best
1. Low birth weight of term babies (%)	1.8	2.8	7.0	[Bar chart showing range and position]	0.6
2. Child Development at age 5 (%)	60.3	60.4	25.0	[Bar chart showing range and position]	88.9
