## Key Statistics

The health and wellbeing of children in Leicestershire is generally better than the England average. The level of child poverty is better than the England average. Children in Leicestershire have better than average levels of obesity. In 2016/17, 22.3% of five year olds had one or more decayed, filled or missing teeth, this was similar to the England average. A similar proportion of children to the England average are judged to have achieved a good level of development at the end of the foundation stage. The teenage pregnancy rate is better than the England average.

- \* Deprivation is lower than average in Hinckley and Bosworth and life expectancy for both men and women is better than the England average.
- \* Although the proportion of children living in poverty is better than the England average, 2025 children still live under this circumstance.
- \* Hinckley and Bosworth has 33 primary and 10 secondary schools. 17642 pupils attend these schools and 51.2% are male.
- \* Hospital admissions caused by unintentional and deliberate injuries in children are similar to the England average in 2017/18
- \* In Reception, 220 children were classified as overweight or obese in 2018/19. In Year 6, this rises to 334 children.
- \* Levels of teenage pregnancy are better than the England average, however 18 teenagers became pregnant in 2017.

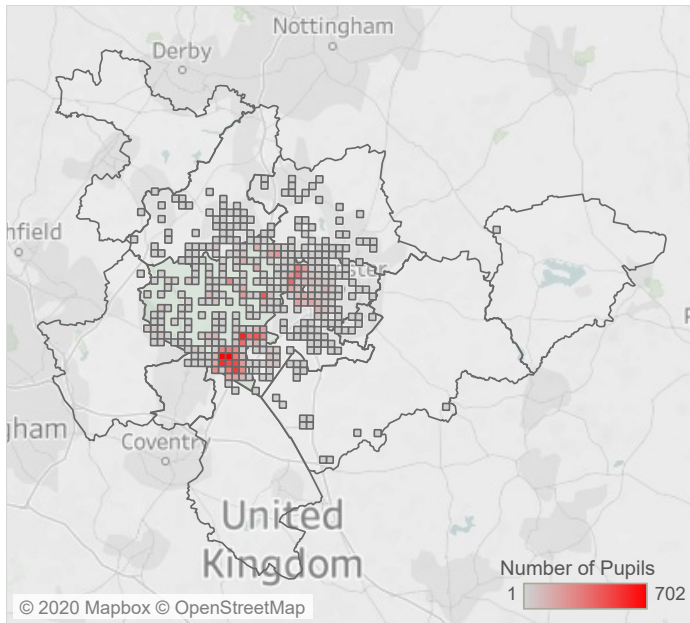

# School Demographics

## Key Figures

	BME %	English as additional language	FSM %	SEN Support %	SEN Statement %
Hinckley and Bosworth	12.8%	4.8%	8.5%	10.3%	3.6%
Leicestershire	18.6%	7.4%	9.0%	10.4%	2.9%

## Child Residence

This map shows the child's residence of those attending schools in this area. Darker colour areas have the most children attending these schools.

## Age Profile

This chart shows the age profile of pupils attending schools in this area, compared to age profile of all school children in Leicestershire.

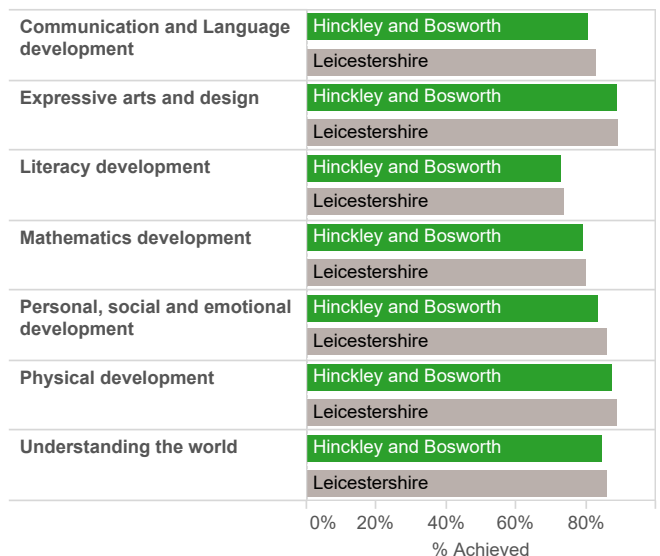

## Income Deprivation Affecting Children Index

The index measures the proportion of children under the age of 16 that live in low income households. This chart shows the percentage that attend a school in this district, the percentage that live in each national quintile compared to the Leicestershire average.

## School Readiness

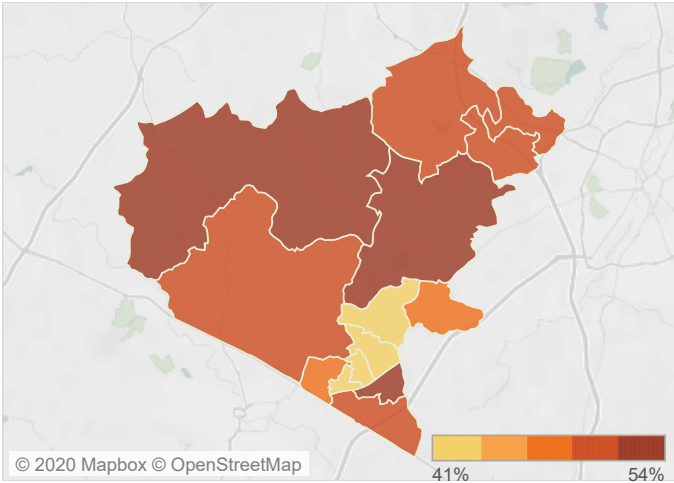

School readiness is a measure of how prepared a child is to succeed in school, cognitively, socially and emotionally. Just as there is an achievement gap in school performance, there is a development gap that separates disadvantaged children from their more affluent peers when being ready for school.

# Educational Achievement

## Attainment 8 Map

Attainment 8 is the students' average achievement across eight subjects including English and Maths. Attainment 8 is replacing the old 5 A\*-C GCSE's including English and Maths measure

## Achievement Throughout School Journey

Educational achievement across school years based on district of residence

**Early years:** % of pupils achieving a good level of development  
**Year 6:** % of pupils achieving the expected level in English and Maths  
**Year 11:** Students measure of achievement across eight subjects

### Primary

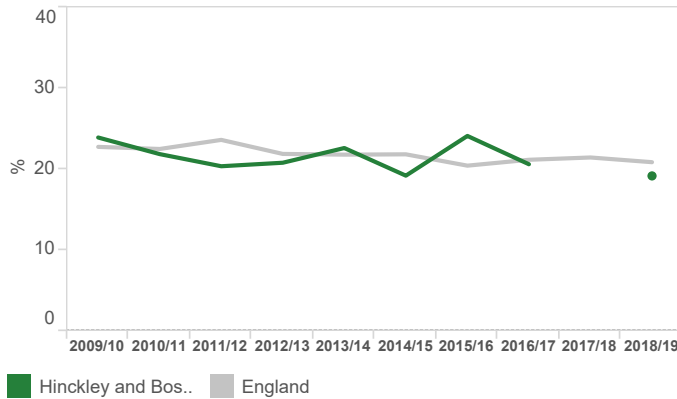

### Secondary

# Health Improvement

## Reception Pupils: Percentage Overweight (inc. Obese)

## Year 6 Pupils: Percentage Overweight (inc. Obese)

# Teenage Pregnancy (aged 15-17 years)

Research evidence, particularly from longitudinal studies, shows that teenage pregnancy is associated with poorer outcomes for both young parents and their children.

This map shows any significant difference in teenage pregnancy rates in this area compared to England at MSOA level.

Legend: Significantly Higher (red), Similar (orange), Suppressed (grey)

# Child Health Summary for Hinckley and Bosworth

The chart below shows how the health of children in this area compares with the rest of England. This area's result for each indicator is shown as a circle. The average for England is shown by the black line, which is always at the centre of the chart. The range of results for all local areas in England is shown as a grey bar. A red circle means that this area is significantly worse than England for that indicator; however, a green circle may still indicate an important public health problem.

Indicator Name	Local Number	Local Value	Eng Avg	Eng Worst /Lowest	England Range	Eng Best/ Highest
1. Children in poverty (under 16s)	2,025	11.0	17.0	31.8		1.7
